## How To Test Your Child:

1.) Select a wall that ensures an unobstructed view from the chart. It should be placed away from windows which may cause glare or shadows.

2.) Measure **10 Feet** from the chart and mark the floor. Your child's heel should be placed at the 10 foot line.

3.) Passing line for 6yrs and older is 20/30, passing for under 6yrs is 20/40.

**\*\*Please Note: If your child wears glasses or contacts, make sure they are wearing them during screening.\*\***

4.) If your child does not pass the passing line for their age, please contact your eye care professional for a complete comprehensive eye exam.

*Questions or comments:*

*Call 405-848-7123, email [info@vizavance.org](mailto:info@vizavance.org), or visit [www.vizavance.org](http://www.vizavance.org).*

***A Vizavance eye chart is not a diagnoses and should not replace a comprehensive eye exam.***
